Jason Edmonds and Shaun Lodge were two outstanding basketball players in the city of London who died in a tragic car crash in January of 2000. Both were amazingly talented basketball players, but were even better people. Jason was a graduate of Beal and was a talented musician, model and actor who would do whatever he could to help other people. Shaun was a graduate of Central and played for the Western Mustangs Men's Basketball Team. He too was a young man who was always looking to make somebody else's day a bit better. They are sadly missed but never forgotten.

Please remember to always pay attention to the road when you are in the driver's seat and to be the one to set a positive example to others when you are driving.
